

Standard Cylindrical IAC Columns your gold standard in mycotoxin analysis

Cylindrical Immuno Affinity Columns (IAC) are the most popular sample preparation technique in analytical laboratories worldwide.

Precise and reliable, the **aokin** ImmunoClean **C** columns can be processed either under gravity conditions or with any standard vacuum manifold.

available for:

AFLA total
AFLA M1
OTA
DON
ZON
FUM
T2/HT2

Slim Cylindrical IAC Columns your economical gold standard in mycotoxin analysis

The **aokin** ImmunoClean **CF** column is an improved version of the classical cylindrical Immuno Affinity Column (IAC). The sleek design is optimized for both standard and difficult-to-purify samples. Reduced production costs make this IAC highly economical.

The **aokin** ImmunoClean **CF** column is optimized for all modern analytical techniques and can be processed either under gravity conditions or with any standard vacuum manifold.
